

Press release

KAO Chemicals has been manufacturing and selling high-performance fertilizer coating additives for more than 45 years

Its SK FERT® and URESOFT® branded additives are trusted by the world's top fertilizer producers.

Barberà del Vallès, 5th March 2021 – Driven by R&D, Kao Chemicals Fertilizers business expertise is continuously made available to fertilizer producers through established worldwide partnerships and is aligned with the Kao business philosophy. Kao is readily equipped to develop tailor-made measure solutions to meet the challenges of fertilizer production, storage and transportation. The technical services offered by Kao propose fully integrated support for its customer's needs that include identification of optimum additive formulations, evaluation of key properties and validation, not only at laboratory scale but also supporting industrial process trials and implementation to target free flowing properties.

Kao has deployed one of the most extensive ranges of chemical products on the market, helping fertilizer producers to improve the quality of their end products and remove their manufacturing concerns. Its solutions add value at every stage of the production process, from handling, application, storage and logistics for all forms of fertilizers, including granule, prill, crystal and liquid.

Kao Fertilizers meet challenging parameters for producers with the following products:

- **Anti-Caking Additives (Oil-based and Water-based systems)**
- **Anti-Dust Additives**
- **Hydrophobic Agents**
- **Corrosion Inhibitors**

Kao Chemicals fertilizer additives are specially formulated for all types of fertilizers such as AN, CAN, MAP, DAP, TSP, AS, NPK blends, Urea, UAN, MOP among others.

By closely working with its customers and understanding each case individually, Kao's technical services delivers tailor-made solutions to improve fertilizer quality and bring value to its partnerships.

Enriching lives, in harmony with nature.

Inspired by its corporate philosophy and ESG (Environmental, Social and Governance) strategy, its R&D experts are continuously working on identifying and developing new environmentally friendly solutions to meet the challenges of the fertilizer industry. Some of these solutions are already a part of its product portfolio.

About Kao Chemicals Europe

Kao Chemicals Europe is a part of Kao group. The Chemical Business offers an array of products including oleo chemicals and derivatives, surfactants, high-performance polymers and others.

Kao Chemicals Europe is committed to taking a responsible approach to the environment and to health and safety throughout the lifecycle of its products.
